The Amazing Book of No "Respect the teachers. They are like gods." This was taught to me by my mom, who is a teacher. "Respect the teachers for sure but if they don’t behave like teachers, take you for granted always and start behaving like unethical monsters, then don’t forget to make them realize by your actions that you are also human as they are, and sometimes you can also make mistakes as they did." This was taught to me by one of my mentors who is a school principal. I agree with both of them, because that’s how the life is supposed to be lived. "Respect the teachers for sure and but if they don’t behave……and all the above I agreed to, but those who mentor you – your teachers, your parents, your peers, your bosses, even your juniors, trust me they are all biased for the one reason that they are all humans with one heart on the left side which can’t be right for most of the practicalities of life and a brain at the top of their head which makes them think – sometimes for you and is most of the times trained naturally to prioritize for themselves and their people, and occasionally you might also be a ‘rit’ in their favorites so they are thinking in favor of you. I am no one to judge anyone’s parents or teachers or bosses or relatives but why, why one of the kids becomes a better child for parents and why the teachers say, ‘o that kid is not ranked high in my list?’ Life in itself is a practice and you learn to live it better and better as you learn its principles and understand its simple complexities – just like playing a guitar, like playing video games, like understanding the female sex – the more you practice, the more near to perfect you become. But there is one more thing to it and that is that if I am intelligent and if I am mentally strong then I could not become anything – neither bad nor good, neither crook nor candid, neither a hero nor a zero. I can only curse myself sitting in a corner of a dark and shady room criticizing myself with a bitter and entirely rubbish but absolute truth and that is ‘an intelligent and mentally strong man can NOT seriously become anything and that a fool and a weak can only make efforts to become something, to gain and to achieve and a lot of weakness and foolishness is required to run this world.’ What achievement is an achievement, what mission is a mission without any challenges? And weak and foolish only MAKE themselves better, prepare to become strong and intelligent and plan to face the challenges and break the code. History is the biggest proof that everything that’s done without planning could let the strongest loose easily and proper planning, accompanied with a long smooth of confidence and a touch of zeal could make a weaker be victorious. That’s what I had learnt throughout my life after facing so many situations and problems till now and I am still learning the lessons of the game called life, not to win the wars but the hearts and that, my dear friends is this story for… and this book is dedicated: To all those people who made me realize how delicate, beautiful, important, strong, powerful and deadly – IS the game of LOVE. I said ‘game’ of love because it is believed even in today’s world, that love is strong and it’s the strength of any relationship and it wins over all the obstacles and the ones who are against it; though it requires genuineness and sacrifices, but even that way, don’t its definition makes love a game, with its own properties and rules? …….. Every love story generally has a common theme – we see you meet, face challenges, fall in love, face challenges, even get married, face challenges and it’s all a predictable dream. The last shot will show you and your lover with a family. That’s it right? Well no, because I believe in mentioning something which is real, something from somewhere and you belong – this real world. And there, love do not wins – not always;
Morals on the Book of Job Let Me Tell A Story is quite a departure from the military crime fiction Betit has published in the past. Written in the same tight but detailed style characteristic of his earlier books, this collection is a mix of short fiction and memoir, first-person stories that take place over a period of nearly 60 years. Although written in the first person, the narrator of one story is not necessarily the narrator of the next story in the book. It starts with a tale about a 12-year-old boy who learns some important life lessons during a family trip to Maine’s northern-most Aroostook County in the 1950s. It ends with a piece about an elderly Maine couple learning some lessons of their own while coming to grips with old age in the near present. In between there are stories about young soldiers and old soldiers, husbands and wives, mothers and fathers and other sordid types. Half of the ten stories in the book take place in Maine. A lot of the pieces were based on Betit’s experiences during the Vietnam War and its aftermath “I call them woulda-coulda-shoulda stories,” he said. “All of them contain more than one grain of truth. Usually, a lot more.” Previously, Betit published Phu Bai, Kagnew Station and The Man In The Canal, military crime novels set in South Vietnam, Ethiopia and Sweden, respectively, during the late 60s and early 70s. That series follows the adventures of U.S. Army CID investigator John Murphy. During book talks promoting his crime novels Betit sometimes read early versions of a few of the stories in Let Me Tell A Story at his events. “It was a good change of pace and the stories were well received,” he said. “Like my other books, this book can be classified as a good read.”

Nali NALI By Esther Henry In an era of darkness, mystery, tropical jungles and cannibalism, Nali tries to buck the ancient traditions, only to find herself deeply entrenched in them. As a young girl full of dreams, she is given to a tribal elder in marriage and quickly learns that her girlhood dreams could be shattered overnight. The rain forest held a secret refuge that only Nali knew, where she took her dreams and her delusions. Will she be forced to succumb to a subservient role the rest of her life, or can she overcome the hopelessness that comes with isolation, ignorance and tradition? Deep in the heart of New Guinea lies the village of Mendoka, beautifully camouflaged from the rest of the world. Although the village has yet to be discovered, the outside world would soon have an influence on their lives. An interruption to their peaceful simplicity would both terrify them and cause them to search for answers. Readers will be able to follow the lives of those who lived in a much simpler time and become immersed in the culture that controlled their everyday existence.

Letting Stories Breathe Gregory the Great was pope from 590-604 and left behind a substantial literary heritage. His most ambitious work and one of the most popular works of scriptural exegesis in the middle ages was the Moralia in Job, commenting the book of Job in 35 books running to over half a million words. Saint Gregory's Commentary on Job was written between 578 and 595, begun when Gregory was at the court of Tiberius II at Constantinople, but finished only after he had already been in Rome for several years. This is Volume 1 of 3—containing Books 1-10

Faith's I Didn't Do It! Hiccum-ups Day The Book of Isaiah is very Rich with Metaphors and Similes, if you are in Love with them, or not; but, most Poor People are not: because the Metaphors are far too "Foggy" for them to Understand, which Means that they must Practice Reading all such Books, just to get a Good Understanding of them. At any rate, this Version of Isaiah is by far the Best in the World, and is Rated as "Extremely Good" by Well-Educated People. Therefore, it is a "must read" Book, if anyone is Interested in Actually Understanding the Bible. Most People are not; but, that is not a Problem: because most People were not Born to be Masters. Indeed, most were Born to be Good Servants of Good Masters, which is Good: because the Masters are like the Head of the Body of Good Government, which Body must have many other Working Parts and Organs, just to Function Correctly as a Body. Therefore, do not let the Hands Despise the Eyes: becauSe, what could the Hands Do without Eyes to Guide them, even if the Eyes belong to some other Person, who
can See what is Needed. We suggest that Readers of this Inspired Book take their Sweet
Time, and read only a few Chapters each Day, and do not attempt to read the entire Book
during one Day, even though it will be Tempting to Finish it, quickly, just to Discover
those Precious Parts that make it so Famous and Controversial among Religious Scholars,
some of whom are very Perplexed by it: because no one can Rightly Deny that God, himself,
is Speaking through "Isaiah," who may have been Reincarnated! Indeed, there is the
Possibility of it; but, do not let that "Buck you Out of the Saddle," as a Cowboy might
say. Remember that this is a Companion Book of: "The New MAGNIFIED Version of The Book of
MOORMON!" (The Story of the White and Dark Indians in the Americas!), Book 040, which is

Unchosen Stories accompany us through life from birth to death. But they do not merely entertain, inform, or distress us—they show us what counts as right or wrong and teach us who we are and who we can imagine being. Stories connect people, but they can also disconnect, creating boundaries between people and justifying violence. In Letting Stories Breathe, Arthur W. Frank grapples with this fundamental aspect of our lives, offering both a theory of how stories shape us and a useful method for analyzing them. Along the way he also tells stories: from folktales to research interviews to remembrances. Frank's unique approach uses literary concepts to ask social scientific questions: how do stories make life good and when do they endanger it? Going beyond theory, he presents a thorough introduction to dialogical narrative analysis, analyzing modes of interpretation, providing specific questions to start analysis, and describing different forms analysis can take. Building on his renowned work exploring the relationship between narrative and illness, Letting Stories Breathe expands Frank's horizons further, offering a compelling perspective on how stories affect human lives.

RAB Series - The R Story From their 1974 debut at New York’s premier punk dive, through
the classic albums and blistering live sets, The Ramones cut an unforgettable swathe through
two decades of pop, setting the scene for punk and hardcore with honed-down songs and
ferocious 20 minute sets, but always putting the music first. Seen through the eyes of the
people who were there at the time, including musicians, managers, producers, publicists and
New York punk scenesters, this book shows the heroic Ramones staying faithful to their own
unique musical vision right to the bitter end. This updated edition now climaxes with the
sad death of guitarist Johnny Ramone.

Goodnight Scarlett and the Moon, It’s Almost Bedtime This book presents good news for
stressed and concerned parents: it does not require a Ph.D or unlimited hours for parents
to make a difference in their children’s education.
